(e) whether it is also a fact that maximum number of textile mills are proposed to the closed down in Gujarat and, as a result thereof maximum number of workers are likely to be retrenched in the state;

(f) if so, what are the reasons for closing of maximum number of textile mills in Gujarat and the resultant retrenchment of workers; and

(g) what amount has been sanctioned for modernisation of sick textile mills in different State, state-wise?

THE MINISTER OF STATE OF THE MINISTRY OF TEXTILES (SHRI ASHOK GEHLOT): (a) to (g) Government have approved a Turn Around Strategy for NTC mills. The Key elements of this strategy would be selective modernisation, financial and managerial restructuring and rationalisation of surplus workforce through the Voluntary Retirement Scheme. Voluntary Retirement Scheme will also be offered to the officers, staff and workers of such chronically sick mills, which have no possibility of viability and which may have to be closed down or merged with adjacent units to ensure viability. The viability of these mills will be determined on the basis of financial performance, productivity, man-machine ratio, wage cost etc. It is expected that about 80,000 officers, staff and workers of NTC would avail of Voluntary Retirement Scheme, under which they would be provided *ex-gratia* payment equivalent to 1V4 months emoluments for each completed year of service, in addition to normal terminal benefits. An outlay of Rs. 532.78 crore has been envisaged for strengthening/ modernisation the viable mills of NTC in the Turn Around Strategy. This would include budgetary support as well as funds from financial institutions.
